

# 6 evil things I made my Sims do

(other than drowning them  
in a pool with no ladder)

1.

I formed a cottagecore witch cult in which all 6 of the cult members lived in a cottage with the high priestess witch, they did spells and summoned demons, and they all WooHooed with each other constantly

2.

created a lesbian serial killer Sim whose sole purpose was to assassinate every single male townie preexisting in the game

3.

I made a Sims fight club  
where a group of male Sims  
just beat each other up (with  
the extreme violence mod)  
and sometimes made out

4.

created an underground  
doomsday bunker where 20  
Sims had to share one big  
bedroom (bunk beds) and  
one toilet/sink

someone tried to make mac n cheese

they didn't have a fire alarm

oh no

5.

made Sims who eloped on their first date,  
then they had a toxic marriage filled with affairs,  
then they separated,  
then got engaged to other people,  
then secretly got back together and kept WooHooing behind their fiances' backs.  
and also doing cocaine together (thanks drug mod)

6.

I made Don Lothario secretly date both Caliente sisters AND their mom all at the same time.

and he got them all pregnant.

sorry for the evildoings  
I would never do this  
to real people  
who aren't pixels  
on my screen
