

MY fave comfort movies CAN & WHY)

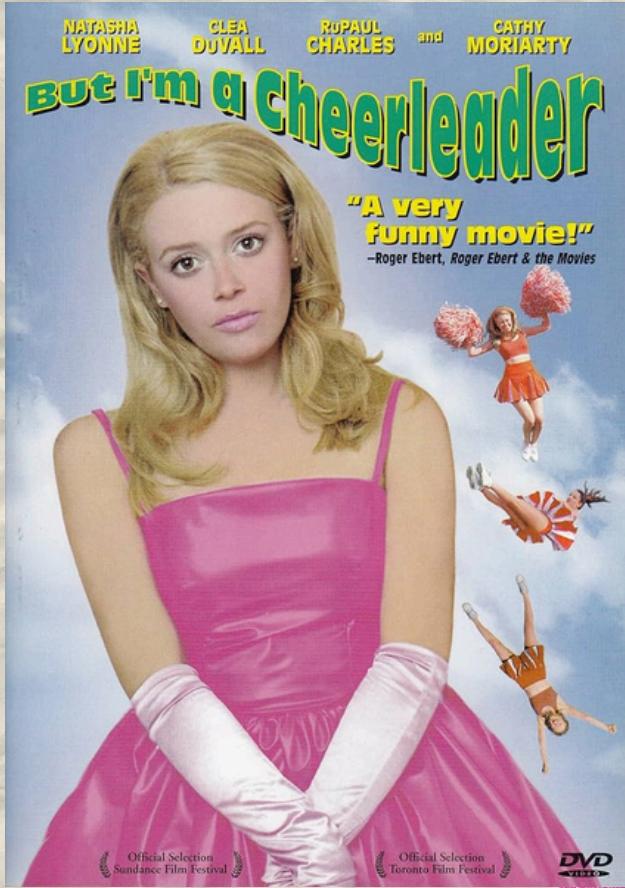

a minizine by Lo Riddell

- Pretty faithful adaptation of the book IMO
- Great portrayal of girlhood and puberty
- Margaret has a complicated relationship with religion (relatable)
- Always makes me laugh!

- Does this need explanation? Makes me cry in the most cathartic way
- Pure summer vibes
- I want to take a nap on Totoro's tummy more than anything in the world

- Maybe the best gay movie of all time
- Clea DuVall drinking water out of her hand..... yeah
- Baby Natasha Lyonne is so cute
- Instant tears at the end of this movie but again, in the best way

- Her outfits are so good i dec
- Good message! It's good to stay true to who you are and just be a good person!
- Young Matty is so baby butch coded
- One of my favorite romcoms ever! There I said it!

- I could write a dissertation on why this movie is one of the best kids' movies ever made
- Miss Honey..... Miss Honey
- Tells kids it's okay to want to get back at the adults who abuse you and it doesn't make you a bad person to want that

- The costumes in this are so good it's insane
- Marilyn's performance in this is one of my favorites
- Hilarious antics all around
- Jane Russell singing about the muscle men she likes while they all look so homoerotic... killer
