

how I would make  
twilight  
better

(besides removing all the problematic awfulness)

a minizine by lo riddell

1. Make it gay (obviously)

GOODBYE EDWARD  
hello Alice vs Rosalie  
love triangle!!

oh you thought the twilight zine made  
by a vampire-loving lesbian wouldn't  
advocate for lesbianism? get real

2. Put them in college  
instead of high school

please at least let them be adults

also who wants eternal high school?

3. Rosalie should still  
be actively killing  
abusive men

she was at her best then

4. Get rid of Jasper

just get rid of him

BOOOOOO confederate soldier  
get OUT

5. Just let Bella become  
a vampire when it  
starts to happen  
the first time

no need to drag it out over several  
books if the love interest doesn't  
have a weird self-punishing complex

6. Rosalie and Victoria  
should be bitter exes  
imagine the drama
